

Welcome to
Our *first*
VIRTUAL
ASSEMBLY!

November 24, 2020

Usually, our Back-to-School Assembly looks like this:

But this year...

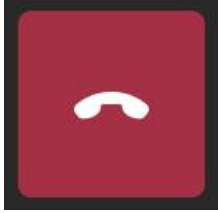

You will join the Assembly through Teams

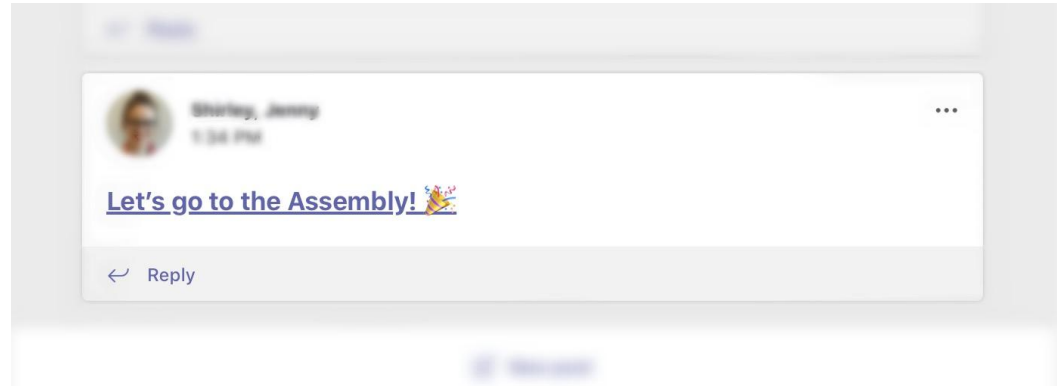

BUT, this is a “Live Event” so...

- 🙄 No one can see you
- 🗨️ No one can hear you
🤪

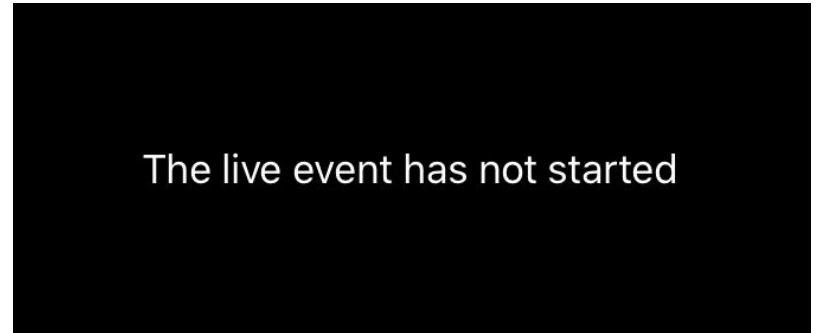

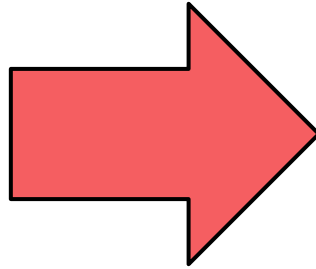

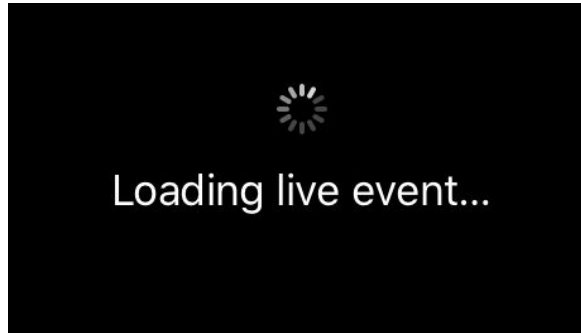

When I give you the link...

1. Press  to leave our class meeting.

2. Press the link
I post in our
class channel:

Once you join, you'll see...

 You may be waiting for a few minutes with a screen like this.

That's okay! You're in the right place!

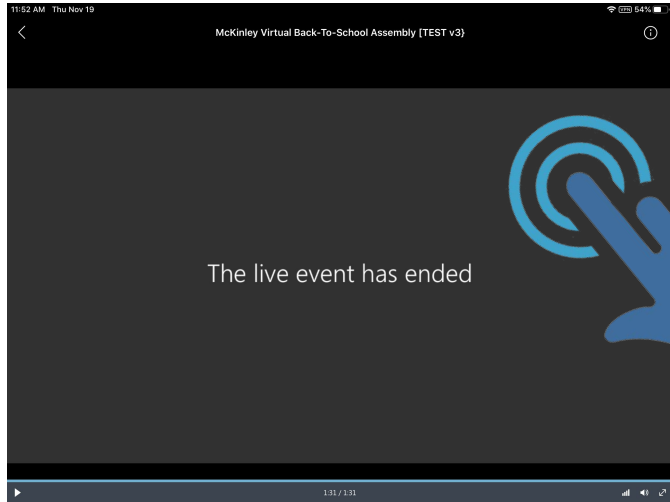

Sometimes, a screen like this pops up:

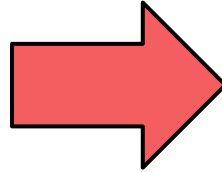

The video playback was aborted due to a corruption problem or because the video used features your browser did not support.
(0x20400005)

Usually, it goes away on it's own! Just give it a few seconds 🕒 ➡️ 🕒

When the assembly is over...

Tap on this screen,

Then click leave!

✦ *You can always leave the assembly and come back if you need to*

Questions?

Let's go to the
Assembly! 🎉
